El Paso Basc Ball Team Preparing to Come.

PRESIDENT HART'S SENSIBLE TALK.

The stockholders of the Ill Pase Athelect directors and hear the reports of officers . But there was not a quorum present. Under the charter granted by ers, and as several of the largest stockhebiers are out of the city, the feeting was postponed until Monday night next. But a number of stockholders were at the county court hoom yesterday ready for business and they discussed the question of sending the El Pasa team to the Albo picrome fair next week.

President Black of the association viewing is from a business standpoint, thought by all means El Paso should send its ball team to Albuquerque. He said Albuquerque offered a purse of engine pooling. On the New Mexico and from \$550 to \$500 to the winners; that this purse would carry six or eight gine pooling was discontinued some offine there to play ten or fictoen games; that Albuquerque would be at no ex. plan of giving engineers regular enpense for these games except the pursa, gines will again be put into effect on as such clair would pay its own ex. the Santa Pe proper, pensurand as a consequence the fair as- Under the present pooling system an

SCHOOL BOARD SECTING.

Considerable Business Transacted Last

Night at a Special Meeting. A special meeting of the Albuquerqu school board was held last evening the Central school building with all of the members present.

President Hopkins reported that the drain pipes in several of the school buildings were in poor condition, and that the roof of the Central school leaked. The building committee were instructed to see that the necessary re-

pairs be made. A. J. Lamb, chairman of the supply committee, reported the ordering of two teacher's ducks at a cost of \$12.50 each. through O. W. Strong.

Indignation was expressed by the board upon finding that the new desks in the Central school were not as good as the sample and, upon motion, the cieric was instructed to notify the Grand Rapids Deck company, through their local agent, that the desks were in the school building, subject to the or-

der of the company. Superintendent Hickey reported that some of the rooms were over crowded, but otherwise everything was running amouthly. After fair week arrangenents will be made to prepare temporary quarters for the overflow of scholara, probably resulting in the election of two new teachers.

Owing to the heavy expenses of the west, and the railroads will do an imboard recently, they did not feel justi- mense business during the next week.

HO! FOR ALBUQUEROUE! find in equipping a float to represent the shools in the carnival parade.

When the bide from the three coal dealers in the city were opened, an animated discussion took place regarding he relative merits of the Gallup and Cerrifice coal.

The bids were as follows: W. H Hahn, Cerrillos coal, \$4.75 per ton; F. D. Marshall, \$4.35 and J. S. Beavins, \$4.34 per ton, the latter two furnishing Gallup coal.

Mr. Lamb, seconded by Mr. Isherto J. S. Beavens his bid being the lowwood, moved that the contract be let est. The majority of the members contended that the Currillos coal was superfor to the Gallup article and that the the state a majority of the stock is Mr. Hahn was awarded the contract by a vote of 5 to 2. He was-also given the contract to furnish the Central school with hard egg coal at \$6.75 per ton. \$161 for territorial institutions. The treasurer's report showed a balance on hand of \$1,976.

Engine Failures Prove the System Uosat Infactory.
